*DATA ANALYST | DATA ENGINEERING*

venu98865@gmail.com | +919886593580 | github.com/Shannuvenu

BCA graduate with hands-on IT and data analytics experience at Deccan Herald, working with business data, SQL, Excel, Python, and web-based systems. Experienced in data cleaning, analysis, reporting, dashboard development, and extracting insights from structured datasets. Built data-focused projects involving PostgreSQL, Python ETL pipelines, Power BI, financial data analysis, vector databases, and data engineering workflows. Strong interest in Data Analytics, Data Engineering, and AI-driven data systems.

## Professional Experience

### IT Intern – Deccan Herald

- Analyzed subscriber, sales & circulation data using SQL for reporting and business insights.
- Performed data cleaning, validation, transformation & quality checks on structured datasets.
- Worked with Databricks and data pipelines for data processing and analytics workflows.
- Supported SEO/data automation, structured data, Git/GitHub, testing & deployment.

### GAMEPULSE — Game Analytics & Data Engineering

Python | SQL | PostgreSQL | Pandas | SQLAlchemy | ETL

- Built an incremental ETL pipeline to ingest and transform game match data using Python and PostgreSQL.
- Implemented watermark-based incremental loading and data validation for reliable ingestion.
- Designed relational data models for players, matches, and match results to support analytics.
- Developed datasets for analyzing player performance, match KPIs, and game behavior.

### Finance AI Data Platform

Python | PostgreSQL | pgvector | FastAPI | Docker | Ollama

- Built a financial data platform for structured data processing and semantic search.
- Implemented vector storage and similarity search using pgvector for financial information.
- Developed Python/FastAPI workflows for data ingestion, processing, and retrieval.
- Integrated local LLM capabilities with Ollama to explore AI-assisted financial data analysis.

## Education

### Bachelor of Computer Applications (BCA)

National College, Jayanagar (Autonomous), Bengaluru
2023 – 2026

- Semester Progression: 53% → 66% → 71% → 80% → 94% *2021-23*

### Pre-University (PUC – 12th)

- National College, Basavanagudi

### SSLC (10th)

- Good Shepherd School, Jayanagar *2020-21*

## Skills

### Technical Skills

- MS Excel & Google Sheets
- Python
- Data visualization
- Power BI
- PSQL & SQLserver
- Docker
- Data Ingestion
- Data Warehousing
- Python Libraries
- Pgvector
- CI/CD
- Git & Github
- Databricks
- Communication skills
